REGISTRATION: Registration for Big 8 Late Models, CWRA, and Alive for 5 SLM are handled respectively by their series. All other divisions can register at <https://www.dellsracewaypark.com> under the drivers registration tab on the front page of the website or you can mail or email the attached entry form. Drivers may only be registered for one division per day, per car.

TRANSPONDERS: Transponders are **MANDATORY** and must be on every car before they enter the race track. Transponders are available for rent at the Pit Gate \$20 per day & must be returned each night at driver payoff in the pit concession stand.

RADIOS & SPOTTERS: Track Frequency is 454.0000 **ALL DIVISIONS are required to monitor this frequency.** 2-Way Radios are allowed for Super Late Models, Big 8 Late Models, Sportsman, Mods, 602 Late Models, **however**, crew and/or driver **MUST** also monitor Race Control at all times while their car is on the track. One Spotter per car is allowed in the spotters' tower. All spotters must be identifiable by car number on their head set band.

QUALIFYING ORDER, LINE UPS, and RESTARTS: Cars will be lined up by qualifying. When possible, all races will be pre-staged in pits on the track entrance ramp. Line up when your division is called and **be ready to go**. The choose cone will be used for all relines, the front row will be side by side unless deemed different by your Series (aka Big 8 Late Models). All lead lap cars which remain on the race track will be allowed to choose. Cars involved in the caution, cars rejoining from the pits and lapped cars - in that order, will fall in at the end of the longest line. The Tap-Out rule will be utilized in all division except the 602 Outlaw Late Models. A time limit may be established for each event, generally one minute per lap.

DRIVER SWAP: In order to conduct a driver swap, the original car must be withdrawn from all future events. The car to which the original driver is going must be a qualified car. The new car will forfeit starting positions and new car/driver combo must start at the rear of qualifying races. If the new car is qualified for the feature event, new car/driver combo must run last chance race. Last chance race will transfer one additional car into the feature event. The driver's tires must follow the driver.

WEATHER & OTHER UNFORESEEN ISSUES: We may need to alter, cancel or run an alternative date if the weather or forecast is not conducive to run a safe race program.
